

3/16/2020

To the Membership of IBEW Local 309:

We are going through some difficult times in our Nation. We are experiencing a pandemic that is reaching everyone not only in the United States, also throughout the World.

In an effort to control something drastic locally, the International office has put our correspondence to go ahead with Executive Board and Union Meeting. The business of the Local still needs to proceed. I would like to limit the attendance at our Union Meetings and follow the guidelines put out by the Governor of Illinois. Which is to limit the meeting to less than 50 people. At this time I've Instructed that JATC, ALBAT and Utility apprentices are not required to attend future meetings unless directed. By all means attend the meeting so we can address your needs. This is not meant to prevent anyone from attending just trying to reduce the possibility of exposure.

The Officers of this local would appreciate your cooperation in these trying times.

Fraternally,

Tim Evans
Business Manager
